

I like unis because ...

The teachers are careful to be fair to every-one.

The restrooms are very clean.

There are lots of languages you can pick to practice or learn.

They have very nutritious platters of food.

I really liked the library, especially the big dragon book.

I also liked all the holidays and the parties.

For example: the book fair and the global play day.

I really liked unis for all these things and would

love if you could find a place for

my sister and me.
